CITRUS CROP FORECAST “LIVE” COVERAGE FRIDAY, OCTOBER 9, 2015

(AgNet Media, Inc., Gainesville, FL, October 2, 2015) The annual Citrus Crop Forecast from USDA’s National Agriculture Statistics Service (USDA/NASS) will be broadcast “live” for the 21st consecutive year, at NOON Friday, October 9, 2015, by Southeast AgNet Radio Network, and online at its website at www.SoutheastAgNet.com.

Several grower events are again planned around Florida’s citrus belt where growers will gather to listen to the broadcast, which will again be anchored by AgNet Media founder, Gary Cooper. AgNet Media’s radio networks are the exclusive farm radio network provider for the “live” coverage which started in the 1990’s at the request of growers wanting access to the crop estimate the moment USDA releases it. AgNet coast-to-coast coverage also now includes a live audio stream at www.AgNetWest.com for California listeners, and the report will be made available to AgNet West radio network’s California affiliates as well.

[Labor Solutions, Inc.](http://www.LaborSolutions.com), [Farm Credit of Florida](http://www.FarmCreditofFlorida.com) and [Florida Citrus Mutual](http://www.FloridaCitrusMutual.com) return as network sponsors, making this network broadcast possible. A website audio test and printable fill-in-the-blank form is made available online in the citrus news category at www.SoutheastAgNet.com.

Southeast AgNet Florida radio stations invited to air this exclusive ‘live’ report are below. Listeners are encouraged to contact these stations in advance for confirmation:
