

Good afternoon to all:

Please find below the results of laboratory testing by PCR for citrus greening (HLB) by FDACS/DPI Advanced Diagnostic Laboratory (ADL) and the Plant Pathology Laboratory (PPL); and the Southern Gardens Diagnostic Laboratory (SGDL). Keep in mind that this is a summarized listing, particularly for the SGDL results, due to multiple trees testing positive in some of the groves or blocks within a grove.

Okeechobee and Manatee counties (see yellow highlighted entries) have been found HLB PCR+; first by Southern Gardens Diagnostic Laboratory and then confirmed by the FDACS/DPI Advanced Diagnostics Laboratory from additional field samples. These additional samples have been also confirmed by USDA APHIS PPQ, National Plant Germplasm and Biotechnology Laboratory.

A new HLB map depicting the locations is being prepared. The updated map will be posted to the FDACS/DPI citrus greening web site when it is completed

Wayne

#### FDACS/ADL (Advanced Diagnostics Laboratory) and PPL (Plant Pathology Laboratory) Results

Log #	Host	Address	Site	TRS	County	Date processed	PCR Results	Lab
P200710460	Citrus sinensis	Silver Strand North, Immokalee	G	46-29-04	Collier	3/21/2007	Positive	ADL
